Meridian Medical Management is a premier provider of revenue cycle outsourcing for large, multi-specialty physician groups and academic practice plans. Meridian's team of professionals provides revenue cycle performance, business intelligence and practice growth to some of the most prestigious medical groups in the country.

Meridian's Revenue Acceleration Program is powered by PrecisionBI (PBI), a division of Meridian Medical Management. PBI is not only integral to Meridian's RCM operations, it's also used independently by over 350 medical groups and more than 50,000 providers nationwide.

According to a **study by Forrester Research**, most companies estimate they are analyzing a mere 12 percent of the data they have. This means these organizations are missing out on the data-driven insights held within the 88 percent of information that they are overlooking. With profit margins tight, there is no better time than now to take a closer look into the benefits of integrating data analytics into your revenue cycle management processes.

Meridian's Revenue Acceleration Program

- Identify opportunities to increase revenue & improve financial health
- Single source of truth for improved financial & clinical outcomes
- Storyboards that provide insight into the performance of PM system users
- Places new-found intelligence into action
- Revenue increases typically range from 3% - 10%

With Meridian's Revenue Acceleration Program (RAP), RCM processes can easily be tailored to meet unique operational and outcomes-based improvements. Academic Medical Practices, Single Specialty Practices, IDNs and independent practices all benefit from the Meridian Revenue Acceleration Program.

A broad array of specialties, including Orthopedics, Radiology, Anesthesiology, Pediatrics, Family Practice, Cardiology and others, can benefit from this proprietary approach.

Dive deep into your data to determine the root cause of issues so you can finally begin building informed business strategies that are expertly tailored to your practice's unique needs.
