Capability	Description of capability	Types of Costs or Fees to be paid by a provider for the capability	Additional Types of Costs or Fees		Limitations (Contractual / Business Practices)		Limitations (Technical / Practical)	
			Additional types of costs or fees that a user may be required to pay to purchase, license, implement, maintain, upgrade, use, or otherwise enable and support the use of.		Limitations of a contractual nature (including developer policies and other business practices) that a user may encounter:		Limitations of a technical, technological or practical nature that a user may encounter that could:	
			>the capability.	>any data generated in the course of using the capability.	>in the implementation or use of the capability.	>in connection with the data generated in the course of using the capability.	> prevent or impair the successful implementation, configuration, support, or use of the capability.	>prevent or limit the use, exchange, or portability of any data generated in the course of using the capability
<p>Direct messaging functionality (including transitions of care, discharge summaries, and clinical messaging functionality).</p> <p>[Relevant certification criteria: §§ 170.314(b)(1) and (2)]</p>	<p>This functionality allows users to send and receive Direct-based messages to/from other users of certified health IT systems. Direct messages may include clinical data, notes, and other information, subject to the limitations noted.</p> <p>Our Direct offerings support related Meaningful Use and ONC requirements for sending and receiving transitions of care summary documents. We also support a range of other messaging options.</p> <p>Our Direct capabilities include bundled Health Internet Service Provider (HISP) services for facilitating message exchange. However, see limitations and additional types of costs that may apply for these and other third-party HISPs.</p>	<p>Monthly licensing and subscription fee included in base service agreement.</p>	<p>A monthly charge applies for each user that requires a direct email address. Direct email addresses may not be shared by more than one user.</p>	<p>Storage and archiving of Direct messages on Meridian's hosted, HIPAA-compliant servers is included with the annual licensing and subscription fee at no additional charge. Most of our customers rely exclusively on this service. However, additional fees will apply should the customer wish to host or archive Direct messages and related content (e.g. attachments, metadata) on the customer's or a third party's server(s). Fees are based strictly on the time, materials, and other costs to Meridian to accommodate customer's specific requirements.</p>	<p>Pursuant to Meridian's security policy, the Direct messaging capability is restricted and users will be unable to exchange messages with users of third-party HISPs with whom the developer does not have a trust agreement.</p> <p>Should a provider wish to establish a new connection with a third-party HISP, provider must lodge a service request identifying the third-party HISP along with contact information for the HISP. Meridian will establish, maintain and support technology to manage the connection. Third-party HISPs must agree to Meridian's connection and trust agreement. Meridian will make every effort in good faith to establish such connectivity within a reasonable time frame (no longer than 3 months). However, we do not warrant that Meridian will be able to establish agreements and required connections with all third-party HISPs.</p>	<p>None</p>	<p>None</p>	<p>Messages archived on DataMotion's hosted, HIPAA compliant, servers will be retrieved and furnished to the provider within 5 business days of a written request being received by Meridian.</p> <p>Storage and archiving of Direct messages on DataMotion's hosted, HIPAA-compliant servers is included with the annual licensing and subscription fee at no additional charge. Most of our customers rely exclusively on this service. Meridian will make every effort to accommodate customer's additional needs or specific requirements, if any. Customers with special hosting or archiving needs should inquire about the availability of these services and should refer to the "Additional Types of Costs or Fees" that may apply.</p>
<p>Patient Portal</p> <p>[Relevant certification criteria: §§ 170.314(e)(1) and (3)].</p>	<p>This module allows for the end user of the EHR to transmit data to the patient portal. The patient then has the ability to view, download, and transmit the data on the portal.</p>	<p>NA, see additional costs.</p>	<p>A one time setup fee occurs both from Meridian as well as from MedFusion. Monthly fees from MedFusion will continue to be charged as long as the product is in use and are based on the number of providers in the practice and the number of modules purchased through MedFusion. Any further changes made by the ONC that require additional modules or programming may result in additional charges/fees.</p>	<p>None</p>	<p>Customer must have a valid contract with MedFusion to utilize this capability.</p>	<p>None</p>	<p>None</p>	<p>None</p>
<p>Transmission of Health Information</p> <p>[Relevant certification criteria: §§ 170.314(f)(3), (4) and (6)]</p>	<p>The ability for the end user to submit relevant health information to immunization registries, cancer registries, and public health agencies</p>	<p>One time development costs as well as monthly support fees.</p>	<p>For new connection requests, a one time setup fee will apply as well as monthly fees as long as the connection is in use.</p>	<p>None</p>	<p>None</p>	<p>None</p>	<p>None</p>	<p>None</p>
<p>CPOE</p> <p>[Relevant certification criteria: §§ 170.314(e)(1), 170.314(n)(5) and (6)]</p>	<p>The ability for the end user to send order requests and receive order results electronically</p>	<p>One time development costs as well as monthly support fees.</p>	<p>For new laboratory interface requests, a one time setup fee applies. Monthly support fees apply as long as the interface is in use.</p>	<p>None</p>	<p>None</p>	<p>None</p>	<p>None</p>	<p>None</p>
